

MARK A · TWO SAILS

On ink #2E2245
chiffon 13.73 · violet 1.96

On violet — do not use
violet sail is 1.00 and invisible

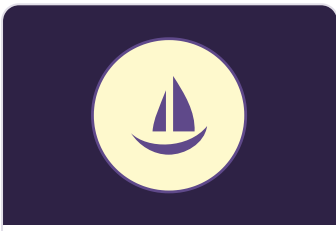

On cream #FFDF0
violet 7.33 · chiffon 1.05

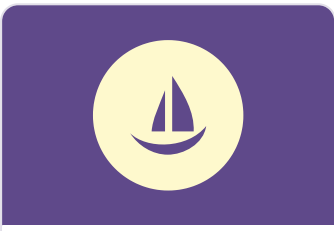

On white
violet 7.48 · chiffon 1.07

The two brand colours are 7.00:1 apart. Two shapes each clearing the 3:1 minimum against one shared ground would need about 9:1, so no ground shows both sails. Figures under 3:1 mean the shape is in the file and not visible to the eye.

MARK B · CHIFFON ROUNDEL — THE SAME TWO COLOURS AS FIELD AND FIGURE

On ink
ship 7.00 · disc 13.73

On violet
ship 7.00 · disc 7.00

On cream
ship 7.00 · ring 7.33

On white
ship 7.00 · ring 7.48

Never below 7:1 on any ground. Use this for favicons, app icons, WhatsApp, and anywhere the background is not yours to choose.

THE TWO LOGO COLOURS

Lemon chiffon	#FEF9CD	254, 249, 205	54°, 96%, 90%
Ultra violet	#5F498A	95, 73, 138	260°, 31%, 41%

FOR A PRINTER

Supply the SVG or the 100 mm PDF and these hex values. **No CMYK or Pantone numbers are given here on purpose** — a conversion made without your printer's paper and ink profile prints wrong, and a guessed Pantone is worse than none. Ask them to convert from the hex against their own profile and to send a proof.

Clear space: the height of the hull, all round. Minimum width: mark A 18 mm, mark B 12 mm.
